SUMMARY

The master job order arises as a factor enabling the / as students increase their skills in ways that are not easy to acquire with the typical structure of classroom lessons, such as: interacting with customers, develop formal specifications of problems , look over specialized literature on a topic, build prototypes,

practice developing technical documentation and the oral defense of ideas.

The ability to solve problems in a study area, considering and evaluating alternative solutions to problems and being able to provide innovative solutions are encouraged.

The type of project to be developed can be very variable, but always within the guidelines set by the objectives and competencies established for the title of Master. In any case, it can be said that the ultimate aim is to apply the skills acquired during their studies to the research activity.

The contents of the field will be different depending on the specific objectives of the project selection.

The master work order will be performed in the manner indicated by the rules of the University of Valencia. The work may be experimental, bibliographic or coordinated research practices in companies or entities with equal dedication.

PREVIOUS KNOWLEDGE

RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

OTHER REQUIREMENTS

Not applicable

COMPETENCES / LEARNING OUTCOMES

2194 - Master's Degree in Personal and Community Nutrition

Adquirir el conocimiento que permita actuar en respeto a los derechos fundamentales y a los principios de igualdad.

Conocer y aplicar los conocimientos y competencias adquiridas en el ámbito profesional en nutrición y alimentación.

Contemplar en conjunto y tener en cuenta los distintos aspectos y las implicaciones en los distintos aspectos de las decisiones y opciones adoptadas, sabiendo elegir o aconsejar las más convenientes dentro de la ética, la legalidad y los valores de la convivencia social.

Desarrollar y redactar resultados y/o publicar trabajos científicos en Nutrición.

Elaborar y manejar los escritos, informes y procedimientos de actuación más idóneos para los problemas suscitados y utilizando un lenguaje no sexista.

Know how to work in multidisciplinary teams reproducing real contexts and contributing and coordinating their own knowledge with that of other branches and participants.

Participate in, lead and coordinate debates and discussions, be able to summarize them and extract the most relevant conclusions accepted by the majority.

Proyectar sobre problemas concretos sus conocimientos y saber resumir y extraer los argumentos y las conclusiones más relevantes para su resolución.

Ser capaces de obtener y de seleccionar la información y las fuentes relevantes para la resolución de problemas, elaboración de estrategias y asesoramiento a clientes.

Students should apply acquired knowledge to solve problems in unfamiliar contexts within their field of study, including multidisciplinary scenarios.

Students should be able to integrate knowledge and address the complexity of making informed judgments based on incomplete or limited information, including reflections on the social and ethical responsibilities associated with the application of their knowledge and judgments.

Students should communicate conclusions and underlying knowledge clearly and unambiguously to both specialized and non-specialized audiences.

Students should demonstrate self-directed learning skills for continued academic growth.

Students should possess and understand foundational knowledge that enables original thinking and research in the field.

Utilizar las distintas técnicas de exposición oral, escrita, presentaciones, paneles, etc., para comunicar sus conocimientos, propuestas y posiciones y teniendo en cuenta un lenguaje integrador e igualitario.
