SUMMARY

The aim is for the student to gain an understanding, through active participation in the activities of a company or institution, of how the tools, models, and methodologies learned throughout the academic year are applied in practice. Additionally, this activity seeks to enable the student to demonstrate their ability to work in a real-world environment, ensuring that their collaboration with the company or institution provides them with a valuable practical experience. At the same time, the objective is for the student to be able to transfer the knowledge acquired during the Master's program to the company or institution.

PREVIOUS KNOWLEDGE**RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE**

TEACHING METHODOLOGY

The Internship Process follows the steps outlined below:

During the current academic year, the ADEIT Foundation will provide a list of available internship opportunities along with their characteristics.

Students will choose from the list based on a ranking system, which is determined by the grades obtained in the first-semester courses.

Once the internship is assigned and formalized, the student and the company will make contact to agree on the start date and further details.

Upon completion of the internship, the student must submit a report by email to their UV academic tutor, with a copy sent to the Master's program director, within a maximum of 15 days.

In accordance with the Regulations on External Internships of the University of Valencia (Royal Decree 1707/2011, of November 18, regulating the academic external internships of university students), the student's final report must include the following:

- a) Student's personal information.
- b) Host company or institution and its location.
- c) A detailed and specific description of the tasks and work performed, and the departments, areas, or services of the company or institution to which the student was assigned.
- d) Evaluation of the tasks performed and skills acquired in relation to the student's academic studies, identifying how the internship contributed to their training.
- e) Description of any problems encountered and the procedures followed to resolve them.
- f) Evaluation of the internship and suggestions for improvement.

The Internship Report is recommended to be between 800 and 1,000 words in length.

EVALUATION

The final evaluation will be based on two criteria:

- 80% of the grade will depend on the report issued by the tutor from the company or institution.
- The remaining 20% will be based on the Internship Report that the Master's student must submit by email to their UV academic tutor, with a copy sent to the Master's program director.
