### COORDINATION

## SUMMARY

## PREVIOUS KNOWLEDGE

### RELATIONSHIP TO OTHER SUBJECTS OF THE SAME DEGREE

There are no specified enrollment restrictions with other subjects of the curriculum.

### OTHER REQUIREMENTS

## COMPETENCES / LEARNING OUTCOMES

-

Acquire and demonstrate advanced knowledge of the principles and applications of artificial intelligence and its influence on the digital society.

Apply and integrate the theoretical and practical knowledge gained to analyse real cases of the digital economy, work, education, culture or governance in the digital society.

Be able to analyse, evaluate and interpret complex and large-scale datasets in the context of the digital

society, using advanced tools and techniques to extract meaningful insights and make informed decisions.

Be able to participate effectively in debates and discussions in the field of digital sociology, demonstrating effective communication skills, critical thinking and respect for diverse opinions.

Contribute to designing, developing and implementing solutions that address social demands, taking the Sustainable Development Goals as a reference.

Demonstrate a thorough and well-founded understanding of the theoretical and practical aspects of changes in the labour, cultural, communication and educational environment influenced by digital transformation.

Demonstrate critical and self-critical reasoning within the field of study, considering aspects such as professional ethics, moral values and the social implications of the different activities carried out.

Design research projects in the field of digital society, using advanced social research techniques.

Gain advanced knowledge of economic dynamics and social inequalities in the digital society, demonstrating a detailed and grounded understanding of the theoretical and practical aspects in these fields of study.

Integrate knowledge of economics, law, communication, culture and sociology to address interdisciplinary problems in the context of the digital society and be able to convey research findings clearly and unambiguously.

Produce and manage statistical, bibliographic and documentary databases on the different areas of the digital society.

Understand and demonstrate detailed knowledge of advanced social research techniques applied to the study of the digital society, including the use of big data, social network analysis and digital methodologies.

## DESCRIPTION OF CONTENTS

## WORKLOAD

### PRESENCIAL ACTIVITIES

Activity	Hours
Attendance at supplementary activities	0,00
Monitoring and tutoring of the master's thesis	0,00
Presentation and defence of the master's thesis	0,00
<b>Total hours</b>	<b>0,00</b>

### NON PRESENCIAL ACTIVITIES

Activity	Hours
Independent preparation of the master's thesis	0,00
Preparation of the master's thesis project	0,00

Total hours

0,00
