

PROGRAMA VI REUNION ANUAL ESTUDIANTES DOCTORADO BIODIVERSIDAD Y BIOLOGÍA EVOLUTIVA

09:00 -10:00	Recepción de presentaciones.
<b>SESIÓN INAUGURAL</b>	
10:00 -10:15	Presentación de la VI Reunión Anual de Estudiantes. <b>Dra. Rosario Gil García</b> (Coordinadora Programa Doctorado)
10:15 -11:00	Origen y evolución de la señalización por giberelinas en plantas terrestres. <b>Dr. Miguel A. Blázquez</b>
<b>BLOQUE I. ECOLOGÍA, EVOLUCIÓN Y GENÉTICA EN PLANTAS</b>	
11:00 -11:15	Edaphic specialist and generalist plants segregate their response to face manifold limiting conditions. <b>Ricardo Sánchez-Martín</b>
11:15 -11:30	Homoploid hybrid speciation in <i>Limonium</i> genus. <b>Alexis J. Maravilla-Alabau</b>
11:30 - 11:45	Identification of <i>Arabidopsis</i> genes involved in differential responses to various strains of Turnip Mosaic Potyvirus. <b>Anamarija Butković</b>
11:45 - 12:30	<b>PAUSA</b>
<b>BLOQUE II. GENÉTICA EVOLUTIVA Y DIVERSIDAD MICROBIANA</b>	
12:30 -12:45	In-depth analysis of the genome of the zoonotic pathogen <i>Vibrio vulnificus</i> . <b>Héctor Carmona-Salido</b>
12:45 -13:00	From endosymbiont to synthetic biology chassis: Genomic and metabolic characterization of <i>Bartonella quintana</i> . <b>Emilio Garrote Sánchez</b>
13:00 -13:15	<i>Blatella germanica</i> gut microbiota dynamics in response to a periodic antibiotic treatment. <b>Jesús Marín-Miret</b>

13:15 -13:30	Insights into the role of insulin-like peptides in aphid photoperiodism. <b>Paolo Cuti</b>
13:30 -15:00	<b>COMIDA</b>
<b>BLOQUE III. ECOLOGÍA, FISIOLOGÍA Y CONSERVACIÓN EN REPTILES</b>	
15:00 -15:15	Hematology and blood biochemistry of free-ranging American crocodiles ( <i>Crocodylus acutus</i> ) in the Pacific coast of Costa Rica. <b>Davinia Beneyto</b>
15:15 -15:30	Use of environmental enrichment to improve the welfare of captive reptiles. <b>Alicia Bartolomé</b>
<b>BLOQUE IV. ECOLOGÍA, EVOLUCIÓN Y CONSERVACIÓN EN SISTEMAS ACUÁTICOS</b>	
15:30 -15:45	Captive breeding of the giant pearl mussel <i>Pseudunio auricularius</i> (Spengler, 1793): Implications for their conservation in Aragón, Spain. <b>Keiko Nakamura Antonacci</b>
15:45 -16:00	Trophic preference of the exotic fish <i>Gambusia holbrooki</i> in two coastal lagoons. <b>Claudia Rodríguez-Sierra</b>
16:00 -16:15	Sex-blocking effect in populations of the rotifer <i>Brachionus plicatilis</i> in relation to environmental predictability. <b>Noemí Colinas</b>
16:15 -16:30	Use of in vivo fluorescent dyes to determine the infectivity and penetration pattern of <i>Cardiocephaloides longicollis</i> (Trematoda, Strigeidae) into the gilt-head seabream. <b>Gabrielle S. van Beest</b>
<b>CLAUSURA</b>	
16:30 -17:00	Valoración y clausura del curso 2019-2020
