NOTICE ON THE INCREASE OF THE ERASMUS STUDIES SCHOLARSHIP FOR FULL A/Y STAYS IN THE YEAR 2018/2019

By resolution of the Director of the Spanish Service for the Internationalization of Education (SEPIE), dated May 31, 2019, the final award of subsidies for Erasmus mobility projects in Spain was resolved in 2018 (2018-19). This represents an increase of 884,301.75 € with respect to the initial award received by the University.

Given the criteria for the final award of grants of the Erasmus program in 2018 approved by the resolution indicated above, it is allowed that the part of the mobility that has not been financed, will be able to obtain financing in agreement with the final award of subsidies.

In this way, in Erasmus mobility studies the possibility of making a third additional payment to students of the entire course is allowed, for the part that has not been funded with funds from the European Union.

In light of these backgrounds, Erasmus students studying for a full academic year in the 2018-19 course will receive a third payment of funds from the European Union.

The third payment will be made for the days resulting from the difference between the actual stay of the student, which cannot exceed the number of months established in the resolution of the award of mobility (9 or 10 months), and the period of time that has already been subsidized in the first and second payment (7 months).

The student will receive this third payment after the end of his stay and after the payment of the second term of his scholarship. You will receive it automatically, without having to make any additional request.

In any case, it is recalled that, in order to receive the second and third payment, students must provide the certificate of stay at the University of Valencia. They will do so through the electronic form "Erasmus Scholarship 2018-19 Studies - Completion" that will be included for this purpose at the electronic site www.uv.es/enter. The universities of destination send this certificate when the students finish their mobility stays.

Valencia, June 5th, 2019.
