Nos aseguramos de que en la sección de Learning Agreements tienen las APIs implementadas (si está en verde, es que está implementada)

The screenshot shows a modal window titled "EWP details" with a close button (X) in the top right corner. The modal lists various APIs under different categories. Each entry includes a description, a status indicator (a green circle with a white checkmark), a version number, the provider name, and the email address.

API Name	Description	Status	Version	Provider	Contact Email
IIA Approval CNR	Allows partners to listen for approvals of their copies of the IIA.	Implemented	2.0.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Mobility Factsheet	Allows partners to share all the information useful for incoming students in the mobility process.	Implemented	1.2.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Nominations					
Omobility (Get/Index/Update)	This API is implemented by the sending HEI. It allows the receiving HEI to read and enumerate mobilities stored in the sending HEI's system.	Implemented	3.0.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Omobility CNR	This API is implemented by the receiving HEI if it wants to be notified whenever outgoing mobilities kept in their partner's system are changed.	Implemented	2.0.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Omobility Stats	This API is implemented by the sending HEI. It allows the client to get statistics describing outgoing mobilities.	Implemented	1.0.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Imobility (Get)	This API is implemented by the receiving HEI. It allows the sending HEI to read the receiving HEI's "part" of the information related to the sending HEI's outgoing mobilities.	Implemented	2.0.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Imobility CNR	This API is implemented by the sending HEI if it wants to be notified whenever incoming mobilities kept in their partner's system are changed.	Implemented	2.0.0	EWP Dashboard	ewp-plus@it.auth.gr ewp-monitor@it.auth.gr
Learning Agreements					
Omobility LA (Get/Index/Update/Stats)	This API is implemented by the sending HEI. It allows the receiving HEI to read and accept Learning Agreements stored in the sending HEI's system or propose changes to them.	Implemented	1.2.0	CINECA Consorzio Interuniversitario	ewp_support@cineca.it
Omobility LA CNR (Stats)	This API is implemented by the receiving HEI if it wants to be notified whenever Learning Agreements kept in their partner's system are changed.	Implemented	1.1.0	CINECA Consorzio Interuniversitario	ewp_support@cineca.it
Transcripts of Records					
Imobility ToR (Get/Index)	This API is implemented by the receiving HEI. It allows the sending HEI to retrieve Transcripts of Records issued by the receiving HEI.	Not Implemented	-	-	-
Imobility ToR CNR	This API is implemented by the sending HEI if it wants to be notified whenever Transcripts of Records served by their partner's system are changed.	Not Implemented	-	-	-
Imobility ToR Stats	This API is implemented by the receiving HEI. It allows the client to get the statistics describing ToRs issued by this HEI.	Not Implemented	-	-	-
